

Akhil Johnson

Expert Angular and React Developer. Building Dynamic User Interfaces.

✉ akhiljohnson2000@gmail.com | ☎ [+919809194911](tel:+919809194911) | 📍 Thrissur, Kerala, India |

Summary

Senior Frontend Engineer with **8+ years of experience** building **high-performance, scalable web applications** across education, real-time communication, and data-driven platforms.

Strong expertise in **React, Next.js, and Angular**, with deep focus on **component-driven architecture, performance optimization, accessibility (WCAG), SEO, and design systems**.

Proven ability to **own features end-to-end**, mentor engineers, and collaborate with product, design, and backend teams to deliver production-grade user experiences at scale.

Experience

Clockhash Technologies

SENIOR SOFTWARE ENGINEER

Kochi

JAN 2025 - CURRENTLY WORKING

- Owning and delivering **end-to-end frontend features** using **React, Next.js, and React Native**.
- Built reusable components and hooks aligned with a shared UI architecture.
- Improved SEO and performance through **SSR, optimized rendering, and lazy loading**.
- Collaborated closely with designers and backend engineers to translate UI/UX designs into scalable frontend solutions.

CAKAP (REMOTE)

SENIOR SOFTWARE ENGINEER

Jakarta, Indonesia

FEB 2022 - SEPT 2024

- Developed **large-scale React and Angular dashboards** for teachers and students used by thousands of daily users.
- Built **real-time React interfaces** for video, audio, and chat using WebRTC (Twilio, Agora, Whereby).
- Designed reusable UI components and frontend libraries, contributing to design consistency and faster development cycles.
- Improved frontend performance by **35%** through rendering optimizations, lazy loading, and efficient state management.
- Mentored junior engineers, led code reviews, and conducted knowledge-sharing sessions.
- Worked in Agile teams, contributing to sprint planning, estimations, and timely milestone delivery.

QBURST

SENIOR SOFTWARE ENGINEER

Koratty Info Park, Thrissur

OCT 2018 - FEB 2022

- Built scalable frontend applications using **Angular and React** for education and trading platforms.
- Implemented performance optimizations including **code splitting and lazy loading**, improving load times by 25%.
- Integrated REST APIs and collaborated with backend teams for seamless data flow.
- Contributed to mobile deployments using Cordova for Android and iOS.

Performatix

Software Engineer

Trivandrum

Jan 2018 – Oct 2018

- Developed SPAs using **Angular and React**, improving engagement and responsiveness.
- Built data visualization dashboards using **D3.js and Highcharts**, reducing page load time by 30%.
- Ensured responsive and cross-browser compatible UI implementations.

Jay4Web

Junior Software Engineer

Ernakulam

Jul 2017 – Dec 2017

- Developed responsive web and hybrid mobile applications using **Angular, Ionic, and Cordova**.
- Collaborated with designers and backend developers to deliver user-friendly interfaces.

Education

METS SCHOOL OF ENGINEERING
Electronics and communication Engineering

BTECH • 7.5 GPA
JUN 2013 - MAY 2017

ST.SEBASTIAN H.S.S, KUTTIKAD
XII Computer science

+2 • 76%
JUN 2011 - MAR 2013

SKILLS & COMPETENCIES

- #1
- Frontend Frameworks**
React, Next.js (SSR, SEO optimization), Angular
- State Management & Architecture**
Redux, Context API, RxJS, NgRx, Component-driven design
- Performance & Optimization**
Code splitting, lazy loading, memoization, Web Vitals, Lighthouse, Chrome DevTools
- Accessibility & SEO**
WCAG, ARIA, semantic HTML, SSR, metadata optimization
- Testing & Tooling**
Jest, Karma, Jasmine, Webpack, NPM
- APIs & Auth**
REST APIs, JWT-based authentication
- Dev Practices**
Agile (Scrum, Kanban), Git, code reviews, documentation

Languages

#1
English, Hindi, Malayalam

Key Strengths for Proximity

- #1
- Senior-level ownership of frontend systems
 - React-first mindset with strong Angular background
 - Performance, scalability, and SEO focus
 - Mentorship and leadership experience
 - Proven ability to work in remote, cross-functional teams
